➤ **ASK FOR HELP.** (Remember that somebody has knowledge about your problem):

Additional thoughts:

Ask yourself:

What do I know about this person?

How do I know the information that I have already acquired?

Where might I find the information that I need that I haven't used before?

Have I collected all the I possibly can from all my family members?

Have I contacted people connected to my online family tree?

Have I noted records still to be reviewed?

*Include historical events because they can have an impact on your family.

*Keep notes of the records that you have already found.

*Note records still to locate.
